

Job Description

We are looking to hire up to 4 Software Engineers who would be able to join our team immediately. Day to day responsibilities would include

- Learning new technologies as required for a project
- You are not rigid with respect to choice of technology
- Work in a collaborative environment using latest code sharing tools

This is a full-time job that would require you to be present in our office located in Rohini - Sector 10 from 9 am to 6 pm (Mon-Fri). You will be allowed to take leaves to fulfill your academic requirements on as needed basis.

Selection Process

We are delighted to inform you that this job profile is open for candidates pursuing undergraduate courses (**Like MCA/ B. Tech only**). Students would be shortlisted based on their school/college marks. It would be followed by a face to face (online) interview of shortlisted candidates. The final round will be offline (at our office)

Remuneration

Selected candidates will begin their training in July 2025, which will continue until the completion of their final examination.

All trainees will receive a monthly stipend of ₹20,000 for the duration of the training program. Upon successful completion of the training, candidates will be considered for a permanent position with an annual salary ranging from ₹5,00,000 to ₹6,00,000, depending on their performance during the training period.

Selected candidates will be required to remain with Invansys until **30th June 2027**. In the event that a candidate voluntarily resigns from the organization before this date, they will be obligated to repay the full amount of the stipend received during their training.
